AMERICAN ASSOCIATION OF ECONOMIC ENTOMOLOGISTS

Constitution 664

Officers ix

List of Meetings and Past Officers x

List of Members xiii

PROCEEDINGS OF THE THIRTY-SIXTH ANNUAL MEETING
Part I, Business Proceedings 2

CURRENT NOTES 164, 347, 423, 508, 612, 675

EDITORIAL 161, 346, 421, 505, 609, 674

HORTICULTURAL INSPECTION NOTES 172, 355, 430, 513, 620, 681

NOTES ON APICULTURE 174, 356, 433, 515, 617, 682

NOTES ON MEDICAL ENTOMOLOGY 175, 359, 434, 516, 620, 685

OBITUARY 162, 421, 506

PACIFIC SLOPE NOTES 175, 359, 619, 686

REPORTS OF COMMITTEES, HORTICULTURAL SECTION 444

REVIEWS 162, 610, 675

SCIENTIFIC NOTES 159, 343, 415, 504, 601, 667

PAPERS:

ARMITAGE, H. M. The Citrophilus Mealybug, *Pseudococcus gahani* Green, as a Major Pest of Citrus in Southern California 554

BABCOCK, K. W. Environmental Studies of the European Corn Borer, *Pyrausta nubilalis* Hubn. 120

BALL, E. D. The Correct Names of the Leafhopper Infesting the Apple and Potato 594

BARBER, GEO. W. Migration—An Important Habit of the European Corn Borer 582

BASINGER, A. J. A Supposedly Beneficial Insect Discovered to be a Citrus Pest 637

BEATTIE, R. K. American Plant Production under Quarantine 444

BLACKMAN, M. W. The Effect of Deficiency and Excess of Rainfall upon the Hickory Bark Beetle 460

BRITTON, W. E. An Asiatic Beetle, *Anomala orientalis*, in Connecticut 309

BURGESS, A. F. Methods of Estimating Abundance and Damage Caused by the Gipsy Moth 180

BURKE, H. E. Some Habits of the California Lead Cable[1] Borer 519

CAESAR, L. Measures Recommended for the Control of the European Corn Borer in the Province of Ontario 128

CAFFREY, D. J. Research Projects and a Synopsis of Results in European Corn Borer Work 112

CHAMBERLIN, T. R. Studies of the Parasites of the Alfalfa Weevil, *Phytonomus posticus* in Europe 623

CAMPBELL, ROY E. Preliminary Report on Calcium Cyanide as a Soil Fumigant for Wireworms 562

Injuries to Peppers in California by *Anthonomus eugenii* Cano 645

CHAMPLAIN, A. B. *Adirus trimaculatus* Say, A Rose Pest 648

CHAMBERLIN, W. J. Another Lead Boring Beetle 660

CHANDLER, S. C. Some Recent Developments in the Use of Paradichlorobenzene 246

CHILDS, LEROY. Control of the Apple Blister Mite in the Northwest[1] 567

CLAUSEN, C. P., and KING, J. L. A Preliminary Report on the Foreign Parasites of *Popillia japonica* 76

COMPTON, C. C. The Use of Lubricating Oil Emulsion on Greenhouse Scale Insects 222

CORKINS, C. L. Grasshopper Baits, with Special Reference to Sodium Arsenite 311

CRAWFORD, H. G. Ploughing as a Factor in Control of the European Corn Borer, *Pyrausta nubilalis* Hubn., in Ontario, Canada 132

CROSSMAN, S. S., and WEBBER, R. T. Recent European Investigations of Parasites of the Gipsy Moth, *Porthetria dispar* L., and the Brown-Tail Moth, *Euproctis chrysorrhoea* L. 67

DAVIS, J. J. Estimating the Abundance and Damage by the San Jose Scale 192

Comparative Tests with Dormant Sprays for San Jose Scale Control 285

Status of Hydrocyanic Acid Gas Treatment of Nursery Stock 440

DELONG, D. M., and MATHEWSON, A. A. The Houghton Gooseberry Aphis, *Myzus houghtonensis*, as a Pest in Ohio 295

DE ONG, E. R. The Preparation and Use of Colloidal Sulfur as a Control for Red Spider 533

DE ONG, E. R., and WHITE, L. T. W. Further Studies of Derris as an Insecticide 499

[1]Withdrawn for publication elsewhere.

DOANE, R. W. The Control of Insects in Cereal Food Products 549

DRAKE, C. J., FENTON, F. A., and BUTCHER, F. D. The Importance of the Flaxseed Count in Predicting the Actual Fly-Free-Date 480

SIMMONS, PEREZ, and ELLINGTON, GEO. W. Biology of the Angoumois Grain Moth—Progress Report 41

FELT, F. P. The Gipsy Moth Problem in New York State 64

FLINT, W. P. A New Apple Pest, *Metachroma interruptum* 260

FRANKLIN, H. J., and LACROIX, D. S. The Spotted Cutworm, *Agrotis c-nigrum*, a Cranberry Pest 406

FROST, S. W. Four Year Experiments on the Control of the Red Spider 101

FROST, S. W., and CRAIGHEAD, E. M. Dusting for Leaf-hoppers, *Empoa rosae* L., in Bearing Apple Orchards 262

GIBSON, ARTHUR. The Occurrence of the Tortricid, *Cacoecia rosana* L. in Canada 51

GLASER, R. W. Rearing Flies for Experimental Purposes, with Biological Notes 486

GLASGOW, HUGH, and GLOYER, W. O. The Mercuric Chloride Treatment for Cabbage Maggot Control in its Relation to the Development of Seed-Bed Diseases 95

GOSSARD, H. A. Should the Midsummer Apple Spray be Timed for the Second Brood only of Codling Worm? 265

GRAHAM, S. A. Temperature as a Limiting Factor in the Life of Subcortical Insects 377

GUYTON, T. L. Oriental Fruit Moth in Pennsylvania in 1923 259

Notes on the Use of Chlorine Gas as an Insecticide 307

HAMLIN, J. C. The Australian Prickly Pear Problem 60

Biological Control of Prickly Pear in Australia: Contributing Efforts in North America 447

HAYES, WM. P., and MCCOLLOCH, J. W. The Biology of *Anomala kansana* 589

HARTZELL, F. Z. The Use of Biometrical Methods in the Interpretation of Codling Moth Experiments 183

The Estimation of Dosage for Volatile Dusts: An Illustration of the Value of Correlation of Mathematics to Entomology 279

HASEMAN, L., and BROMLEY, S. W. Controlling Chinch Bugs in Missouri with Calcium Cyanide 324

HEADLEE, T. J. Certain Dusts as Agents for the Protection of Stored Seeds from Insect Infestation 298

The Fight Against the Gipsy Moth in New Jersey 438

HERBERT, FRANK B. Spray Stimulation 567

HUBER, L. L., and NEISWANDER, C. R. European Corn Borer Investigations in Ohio 125

HUNTER, W. D. Methods of Estimating Boll Weevil Losses 195

HYSLOP, J. A. Statistical Methods in Entomology 177

JAYNES, H. A., and GARDNER, T. R. Selective Parasitism by Typhia Sp. 366

JOHANNSEN, O. A. A Method for the Extermination of the Round-Headed Apple-Tree Borer 383

JONES, D. W. Parasite Introductions: European Corn Borer, *Pyrausta nubilalis* Hubn. 117

JONES, T. H., and BRADLEY, W. G. Further Observations on Tabanidae (Horseflies) in Lousiana 45

Certain Wild Grasses in Relation to Injury to Corn by the Borer, *Diatraea saccharalis*, in Lousiana 393

KIRKPATRICK, A. F. Citrus Spraying in Tulare County[1] 567

LANE, M. C. Simple Methods of Rearing Wireworms 578

LARRIMER, W. H. The Application of Statistical Methods to the Determination of Abundance of and Damage by Hessian Fly 202

LARSON, A. O. The Effect of Weevily Seed Beans upon the Bean Crop and upon the Dissemination of Weevils, *Bruchus obtectus* Say and *B. quadrimaculatus* Fabr. 538

LARSON, A. O., and FISHER, C. K. The Possibility of Weevil Development in Neglected Seeds in Warehouses 632

LATHROP, F. H., and TRASK, VICTOR. Further Studies of Prune Root Borer Control in Oregon 290

LEACH, B. R., FLEMING, W. E., and JOHNSON, J. P. Soil Insecticide Investigations at the Japanese Beetle Laboratory During 1923 361

LOCKWOOD, STEWART. Estimating the Abundance of, and Damage Done by Grasshoppers 197

MARLATT, C. L. Recent Work of the Federal Horticultural Board (Abstract) 437

MCATEE, W. L. Mullen Rosettes as Winter Shelters for Insects 414

MCCOLLOCH, J. W. The Time of Planting Corn as a Factor in Corn-ear Worm Control 320

MCGREGOR, E. A. *Lygus elisus* on Cotton in the Pacific Region[1] 562

McLAINE, L. S. Corn Borer Legislation in Canada 147

MOORE, WILLIAM. Calcium Cyanide 104

MOSHER, F. H., and HOLBROOK, J. E. R. A Device for Inflating Larvae 408

NICKELS, C. B. Results Secured from Late Season Applications of Calcium Arsenate Dust for the Control of the Cotton Boll Weevil 477

PARKS, T. H. The European Corn Borer, Clean-up Methods 141

PARROTT, P. J. Some Side Lights on Spray Injuries to Apple Fruits and Foliage 267

PETERSON, ALVAH. Some Chemicals Attractive to Adults of the Onion Maggot, *Hylemyia antiqua* Meig., and the Seed Corn Maggot, *Hylemyia cilicrura* Rond 87

PHIPPS, C. R. A Stilt-Bug, *Jalysus spinosus*, Destructive to the Tomato 390

READIO, P. A. Notes on the Life History of a Beneficial Reduviid, *Sinea diadema* Fabr. 80

ROBINSON, R. H. The Use of Skim Milk in the Preparation of Certain Spray Materials 396

RUGGLES, A. G. Pioneering in Economic Entomology 34

SAFRO, V. I. The Price of Insecticides 238

SASSCER, E. R. Important Foreign Insect Pests Collected on Imported Nursery Stock in 1923 443

SASSCER, E. R., and WEIGEL, C. A. Recent Developments in Greenhouse Fumigation with Hydrocyanic-acid Gas 214

SEVERIN, H. H. P. Natural Enemies of Beet Leafhopper, *Eutettix tenella* 369

Causes of Fluctuation in Numbers of Beet Leafhoppers, *Eutettix tenella* Baker, in a Natural Breeding Area of the San Joaquin Valley in California 639

SHEDD, O. M., and OLNEY, A. J. The Preparation from Tobacco of a Solution for Spraying 650

SHEPHERD, DAVID. Life History and Biology of *Echocerus cornutus* Fab. 572

SIEGLER, E. W., and BAKER, H. Parasitism of Scales—San Jose and Oyster Shell 497

SMITH, H. S. Some Phases of Preventative Entomology[1] 519

SMITH, L. B. The Japanese Beetle Status in 1923 107

SMITH, R. C. *Caenurgia erechtea* Cram. as an Alfalfa Pest in Kansas 312

SMITH, RALPH H. Experiments on the Efficiency of Lead Arsenate in Protecting Apples against Codling Moth Injury 528

SMULYAN, M. T., and WEBBER, R. T. Observations on an Outbreak of *Utetheisa bella* L. 337

SNAPP, O. I. Three Years of Paradichlorobenzene Experiments in the South 253

SNOW, S. J. Notes on an Outbreak of Cutworms[1] 567

STEARNS, L. A., and HOUGH, W. S. Spreader Tests on Apples and Peaches: A Second Report 274

STREETER, L. R. Lead Arsenate, Lime-Sulfur and Tobacco Dust as a Triple Spray Mixture 656

STRONG, L. A. Horticultural Inspection Methods in California (Abstract) 437

SULLIVAN, K. C. The Use of Calcium Cyanide for the Control of Fleas and Other Insects 230

SULLIVAN, K. C., and MCBRIDE, O. C. The Effects of Oil Spray on Apple Aphids 658

TIETZ, H. M. The Solubility of Arsenate of Lead in the Digestive Fluids of the Honey Bee, *Apis mellifica* 471

TURNER, W. B. The Tule Billbug 528

VICKERY, R. A. The Striped Grass Looper, *Mocis repanda* in Texas 401

VORHIES, CHAS. T. *Cylindrocopturus jatrophae* Fall., a new Economic Insect 526

Cotton Boll Weevil and Thurberia Bollworm Problem in Arizona 553

WADE, OTIS. The Effectiveness of Calcium Cyanide in the Extermination of the Black Tail Prairie Dog, *Cynomys ludovicianus* 339

WAKELAND, C. New Developments in Alfalfa Weevil Activity and Control 330

WATSON, J. R. Control of Root-Knot Nematodes on Florida Truck Farms 225

WEBSTER, R. L. Factors Affecting Damage to Crops by Insects 54

WEHRLE, L. P. Notes on the Pear Midge, *Contarinia pyrivora* 411

WEIGEL, C. A., and BROADBENT, B. M. Lubricating-Oil Emulsions as a Control for *Chrysomphalus aonidum* in Greenhouses 386

WORTHLEY, L. H. Operation of Quarantine No. 43 on Account of the European Corn Borer Control 149

WYMORE, F. H. The Garden Centipede, *Scutigerella immaculata* Newport, a Pest of Economic Importance 520

YAGHI, N. Application of Rontgen Tube to the Detection of Boring Insects 662

YOTHERS, M. A. Tree Cricket Injury to Prunes 661
